#5 AI

Is GPT going to replace us

ChatGPT Ban

Yes, it will replace Humans, who are not ready to Leverage

#3 Disclaimer

1950s: by 2023, we will have flying cars!

2023:

A.I is Moving Very Fast

Impossible to cover all

New stuffs in future

A.I Tools

It can't be RIGHT always

Can Generate only Limited number of characters

ChatGPT

Trained only till September 2021

To Overcome this Problem

Use Bing on Edge

No memory

#4 Big Problem

Are You writing Prompt?

Write an email script for event "Learn Digital Marketing" at rs. 99

Imagine You are an Experienced copywriter who has written copy for brands like uber, oyo, zomato etc

Now write an email for new workshop of pantech ai on "5 Days Event on Digital Marketing @Just Rs.99"

Write a copy friendly to resonate with an audience of 20+ years trying to become digital marketer in top mnc's. Give more importance to people who looking for job in digital marketing, seo, bloggers, e commerce, kind of job who need huge organic traffic

Write in terms of addressing the problems of people looking for digital marketing as a career and address this 5 days is the solution to solve their problem and copy should be using easy words to understand for everyone and tone should be friendly with emoji

Make mail shorter

Emoji

No long paragraph

Add

Tell workshop is free, who register without being salesy or trying to drive fear of missing out

Variants

Just make variations of above for marketing audience

only for tech people, with tech jokes

Not having an aware about Not Knowing - JUNK IN JUNK OUT

#5 Business Use case

ChatGPT

Writing an Email

Write detailed prompts

Tone - Friendly

Joke

No Paragraph

Add

Bullet point

easy words

emoji

short

Do's
